

### **Announcement to Facility Services**

I am pleased to announce that Mohamed Attalla has accepted the appointment as the new Assistant Vice-President, Facility Services, effective October 24, 2011.

Mohamed comes to McMaster with more than 25 years of experience in construction, facilities planning, project management, building sustainability, energy management, health & safety and team leadership. His most recent appointment was in a senior leadership role at the Toronto District School Board, where he provided leadership to over 500 union and management staff, and oversaw the delivery of facilities management services in 550 buildings. Mohamed is a professional engineer, with a PhD in Civil Engineering from the University of Waterloo.

During his first few weeks at McMaster, Mohamed will be focused on meeting and establishing relationships with individuals, both from within the Facility Services group and from across the University.

Please join me in welcoming Mohamed. I encourage you to take the time to connect with Mohamed, to share your knowledge of McMaster and to help him settle in his new role.

A handwritten signature in black ink, appearing to read "G. Brown".
